# Cara Bikin Akun Di Anaconda

1. Masukkan Email, centang kotak di bawah dan klik Continue

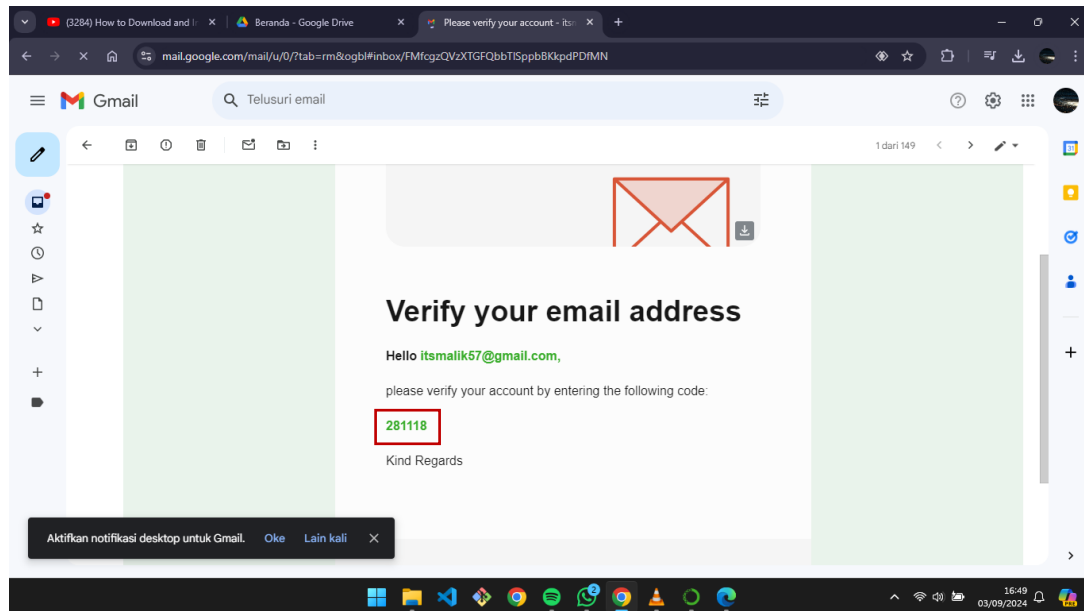

The screenshot shows the 'Create account' page on the Anaconda website. The URL in the browser is <https://id.anaconda.cloud/ui/registration?flow=633b595d-a30f-4b6c-aecc-b015cc2bc633>. The page has the Anaconda logo at the top, followed by the text 'Register an account' and 'To authenticate anaconda.cloud'. There is an 'E-Mail' input field containing 'itsmalk57@gmail.com'. Below this is a checkbox with a green checkmark and the text 'By continuing, I agree to the collection of my data, Anaconda's Privacy Policy, and Terms of Service.' A red error message 'Property optin is missing.' is visible below the checkbox. At the bottom, there is a 'Continue' button with a green 'G' icon, which is highlighted with a red rectangle. At the very bottom, there is a link that says 'Already have an account? Sign in'.

2. Tunggu pesan masuk ke Email

The screenshot shows the 'Verify account' page on the Anaconda website. The URL in the browser is <https://id.anaconda.cloud/ui/verification?flow=9848195c-003c-4605-ba9c-2fcb4296485b>. The page has the Anaconda logo at the top, followed by the text 'Verify your account'. Below this is a paragraph: 'An email containing a verification code has been sent to the email address you provided. If you have not received an email, check the spelling of the address and make sure to use the address you registered with.' There is a 'Verification code' input field with a green asterisk. At the bottom, there is a green 'Continue' button. The Windows taskbar at the bottom shows the time as 16:49 on 03/09/2024.

## 4.Salin Kode Verify

## 5.Masukkan kode dan Continue
