## Cara Instalasi Cisco Packet Tracer

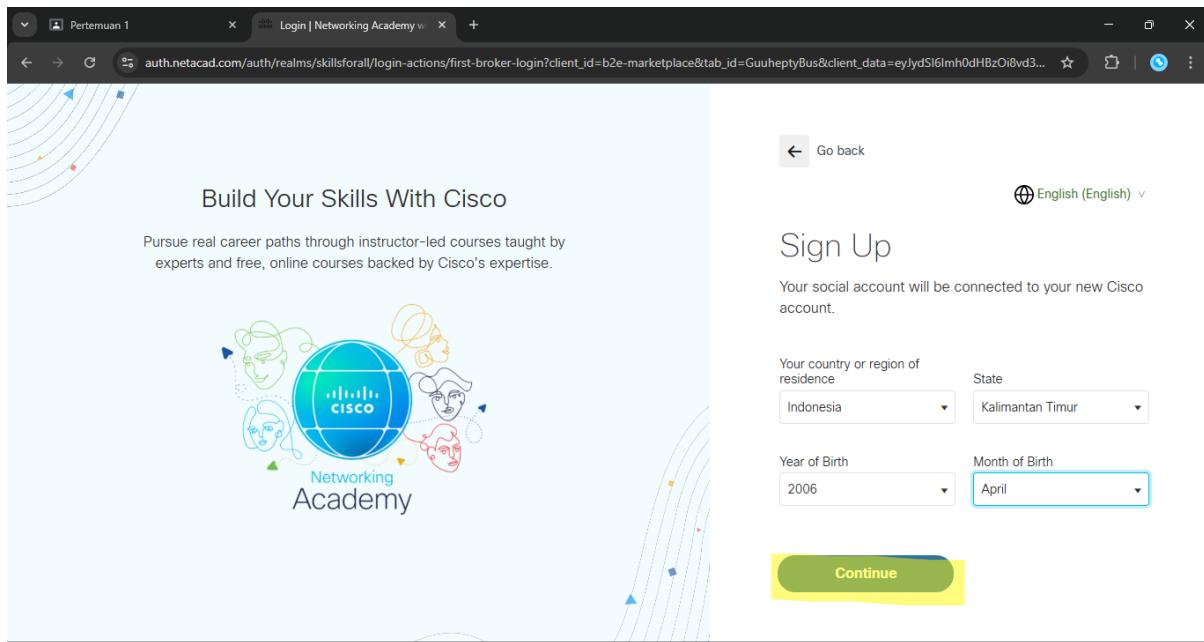

1. Click Link ini <https://www.netacad.com/> untuk mengunduh Cisco Packet Tracer, atau bisa langsung Search di browser **Cisco Packet Tracer**, jika telah terbuka akan menampilkan seperti ini :

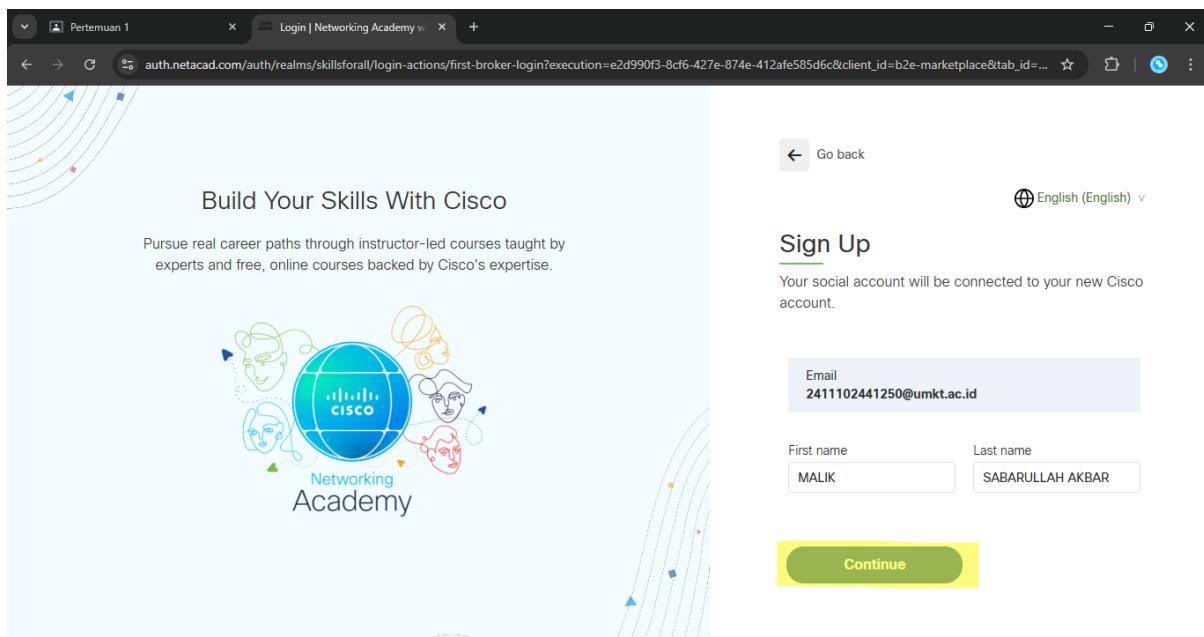

2. jika telah terbuka, kita harus login atau membuat akun terlebih dahulu (disarankan menggunakan akun kampus), seperti berikut :

### 3. Pilih Lokasi dan tanggal lahir kalian,

### 4. Selanjutnya masukkan akun kampus kalian dan buat nickname,

5.Jika sudah membuat akun atau login,kunjungi link berikut

<https://www.netacad.com/resources/lab-downloads?courseLang=en-US>

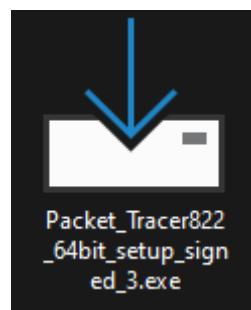

The screenshot shows a web browser window with the URL <https://www.netacad.com/resources/lab-downloads?courseLang=en-US>. The page header includes 'Pertemuan 1', 'Resource Hub: Get Packet Tracer', and 'Cisco Networking Academy'. A banner at the top states 'Downtime Schedule – February 2025' with a note about downtime from Friday, 28 February 2025. The main content area is titled 'Learning Resources' and features a section for 'Cisco Packet Tracer'. It includes a thumbnail image of the software interface, a brief description, and download links for 'Packet Tracer 8.2.2 MacOS 64bit', 'Packet Tracer 8.2.2 Ubuntu 64bit', and 'Packet Tracer 8.2.2 Windows 64bit'. Below the download links are five steps for installation, followed by a link to 'Cisco Packet Tracer Download and Installation Instructions'.

Download Cisco sesuai dengan Sistem Operasi,

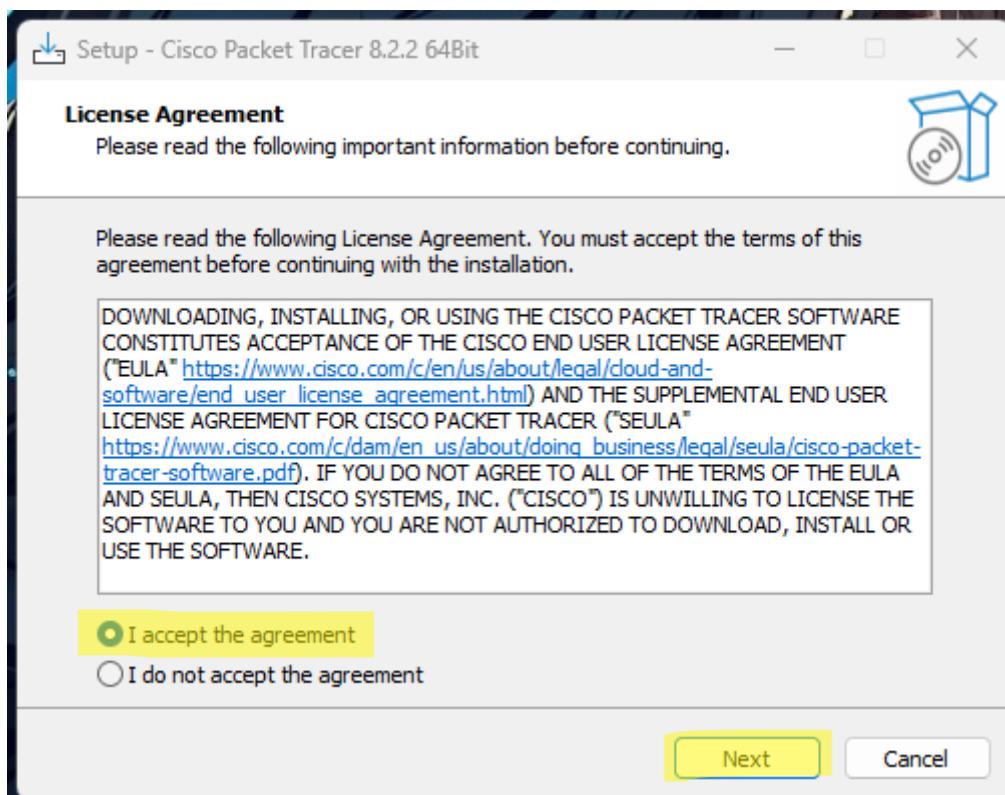

6.Download dan tunggu Hingga Selesai,

The screenshot shows the same website as above, but with a download progress bar for the 'Packet\_Tracer822\_64bit\_setup\_signed.exe' file overlaid on the 'Learning Resources' section. The progress bar indicates the file is 1% downloaded, with a total size of 227,860 MB and a transfer rate of 797,918 KB/sec. The rest of the page content, including the Cisco Packet Tracer section and its download links, remains visible.

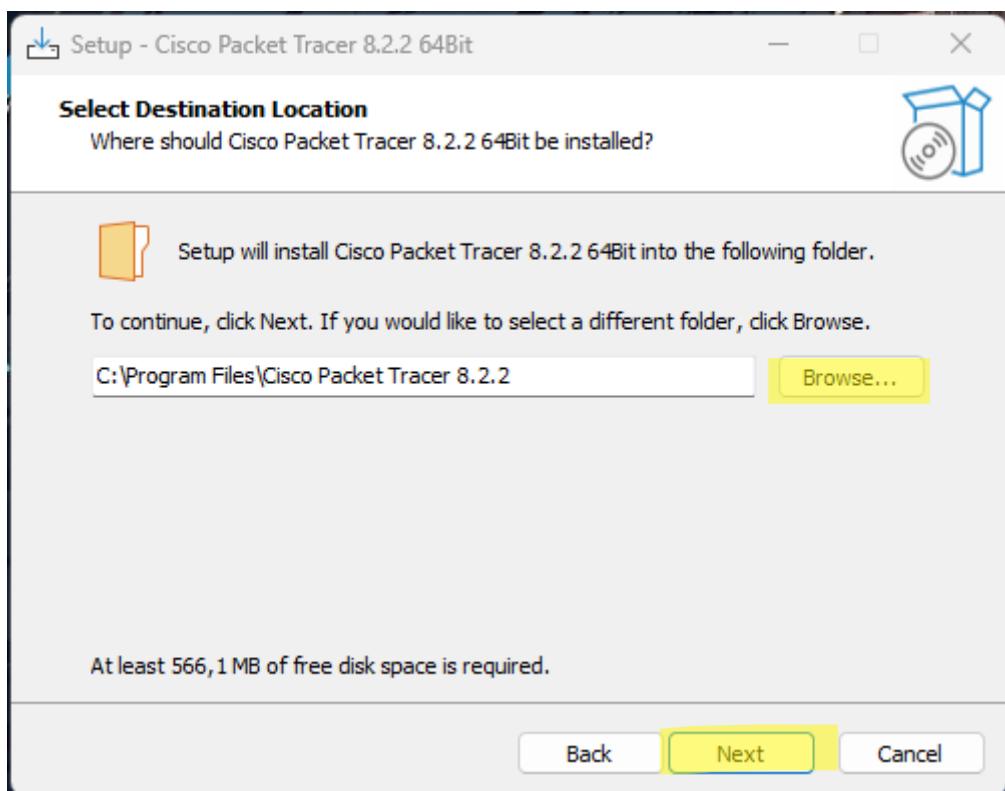

7.Jika sudah terinstal akan menghasilkan Packet Tracer Setup,

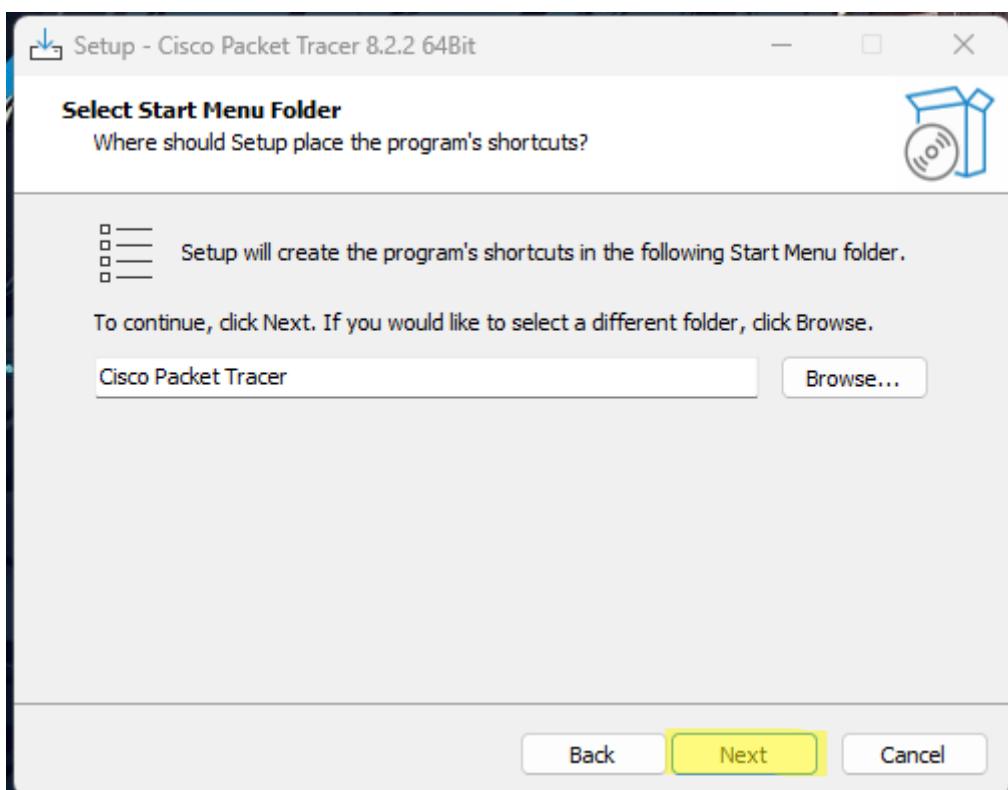

8.Buka Setup-nya,dan pilih Opsi I accept the agreement,dan Next

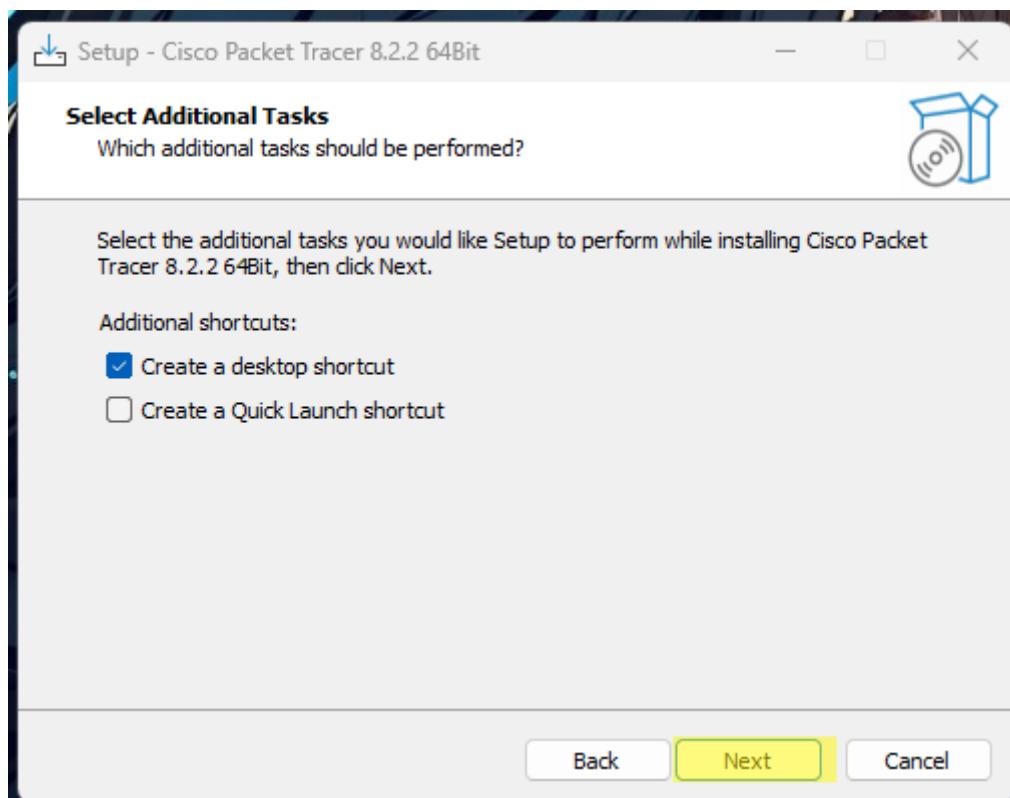

9.Pilih Lokasi untuk menyimpan data aplikasi dan lik Next,

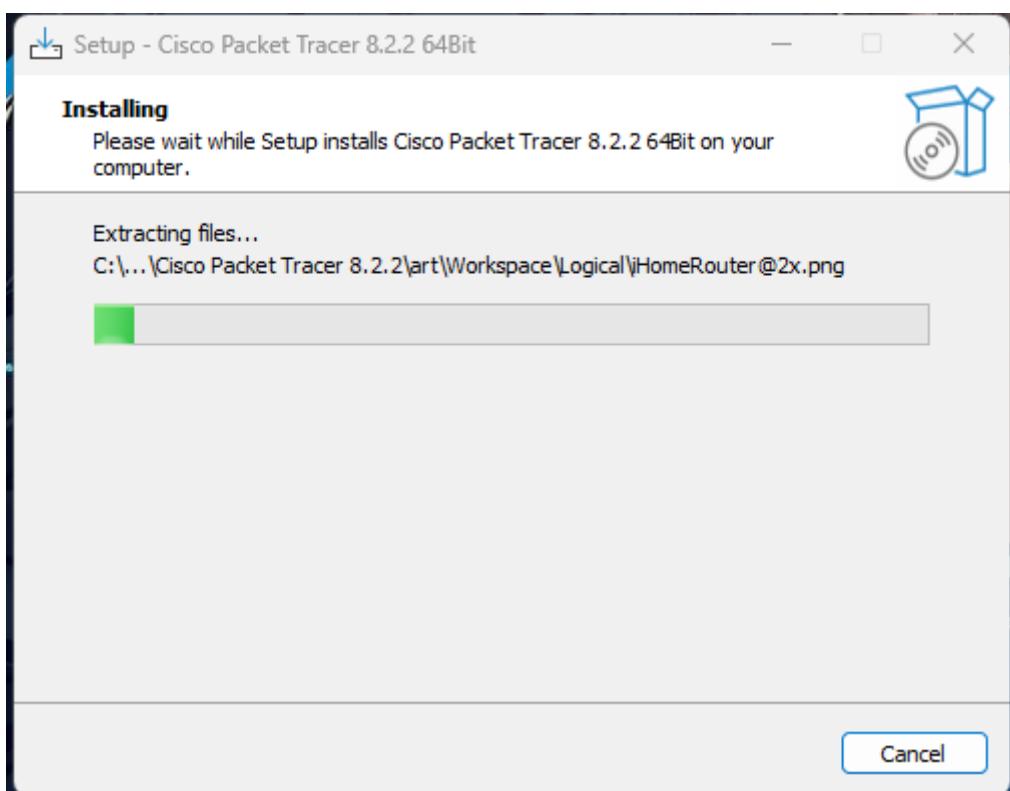

10.Klik Next,

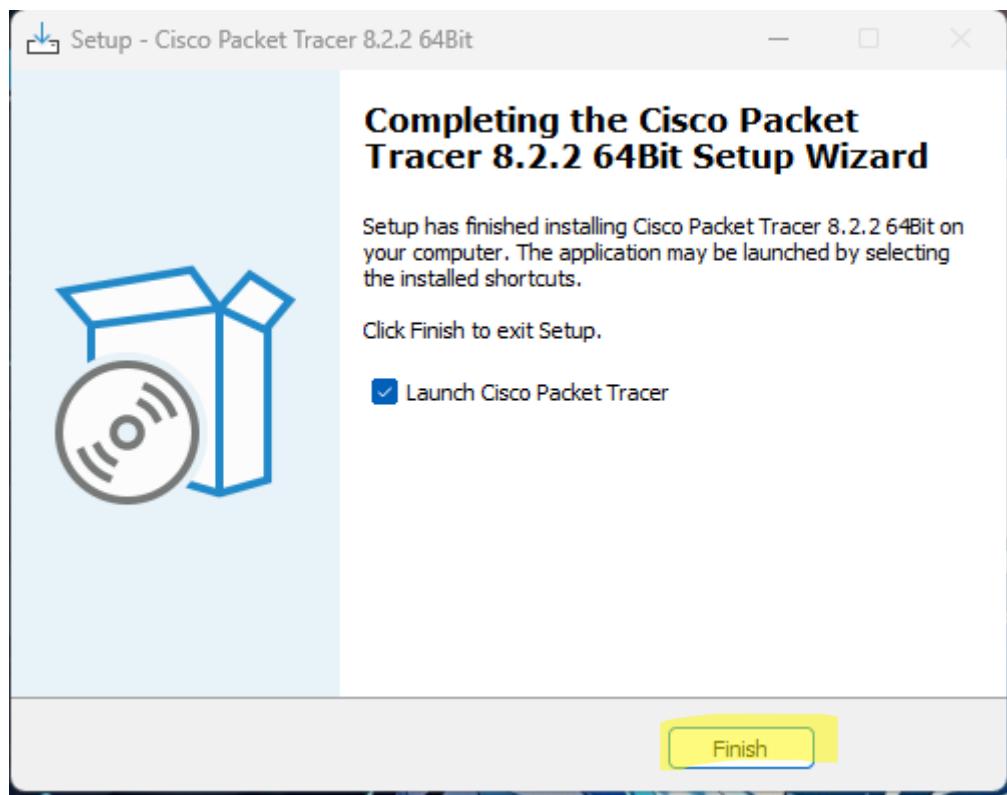

11. Klik Next,

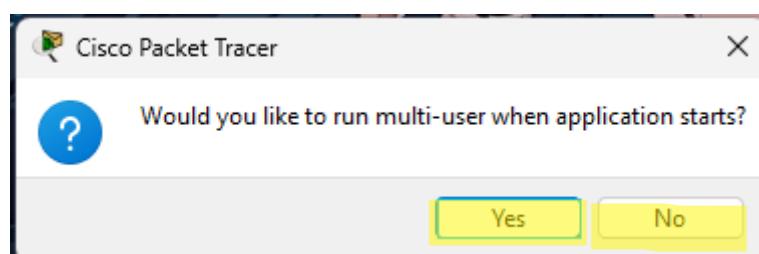

12. Tunggu Instalasi hingga selesai,

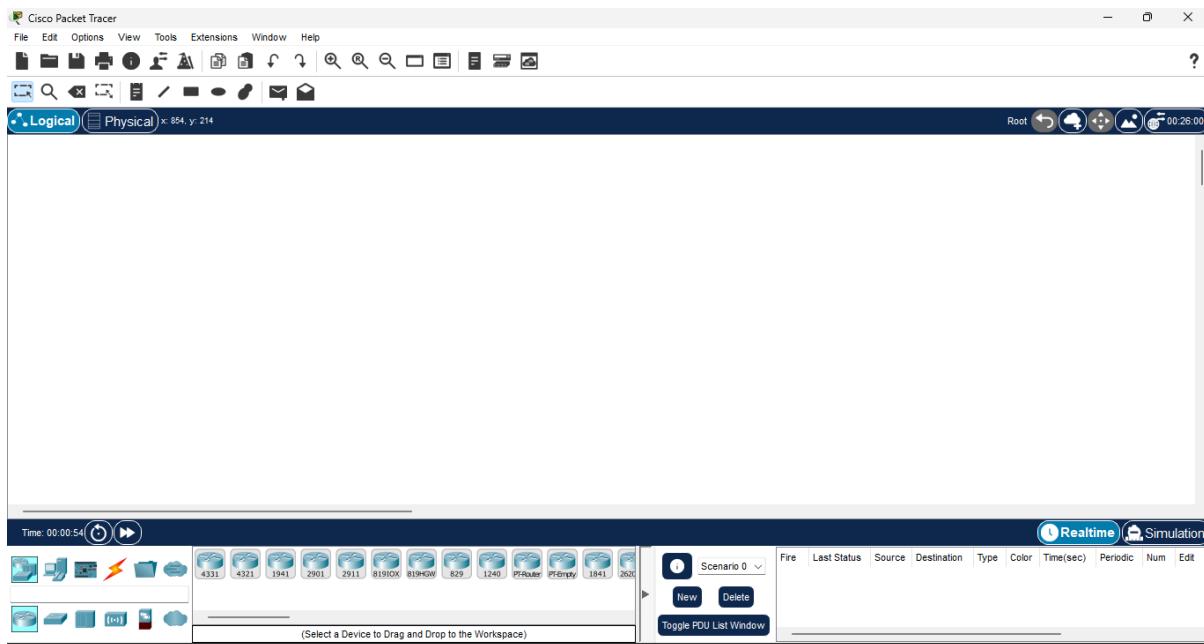

13.Jika sudah klik **Finish**,

14. Setelah selesai di install,Cisco Packet Tracer otomatis terbuka,Click **Yes**, Multi user ini digunakan untuk mengkoneksikan Cisco Packet Tracer yang ada di perangkat kita dengan perangkat orang lain sehingga aplikasi Cisco Packet Tracer kita bisa terkoneksi ke perangkat orang lain.

15. Dan aplikasi Cisco Packet Tracer telah terbuka,jika kalian disuruh login,loginlah menggunakan akun yang dibuat sebelumnya,

### Kesimpulan:

Pada pertemuan pertama ini, saya telah belajar cara menginstall aplikasi cisco packet tracer, dan membuat akun cisco packet tracer.
